---

Career Summary

As a computer science student specializing in software engineering, I am skilled in HTML, CSS, JavaScript, and React. I develop accessible and user-friendly web applications with a focus on solving real-world problems. My strong foundation in computer science enables me to approach challenges analytically, applying structured problem-solving before implementation.

Core Skills

HTML, CSS, Javascript, Responsive Design,Node.js, MongoDB, React/Framework,Version control (Git), Tailwind, Chakra ui, Problem-solving, Collaboration and paying meticulous attention to details.

Professional Experiences

InternPulse

Frontend Developer | Remote | March – May 2024

- Collaborated with cross-functional teams including product designers, backend engineers, and PMs to develop POS-Padi, a fintech solution for Nigerian POS operators that streamlines transactions, balance tracking, and bill payments.

- Implemented responsive UI components from Figma designs and integrated RESTful APIs to fetch and display real-time financial data.

- Conducted thorough code reviews and debugging sessions with team members to maintain code quality and optimize application performance.

- Developed a comprehensive freelancer dashboard with Chakra UI and React, featuring expense tracking, project analytics, and client management functionalities.

- Built a personal portfolio website using React, JavaScript, and Tailwind CSS to showcase technical skills and projects.

- **Project Links: POS-Padi, Bank Dashboard, Freelancer Dashboard**

Education

Kwame Nkrumah University of Science and Technology -Bsc. Computer Science

January 2023 -Present

IBT Learning – Full-Stack Software Engineering

April -December 2023

Certificate : Certificate

Skills

Tech-Stack: Javascript, html/css/ react.js, chakra ui, tailwindcss, chat.js, MongoDB, Node.js, Express.js

Tools: Git, Github, Vs-code, Postman, Figma

Communication: Slack, Linear and ClickUp
